

148 Station Street, Epsom

SOLD

Stylish Designer Quality

 3  2  2

This fantastic home looks and feels just like its brand new probably because its only approx. 2 years young a special order and design by its discerning owner having been built by JG King builders this is a quality steel framed home that is still under its statutory warranty.

There have been many special-order items and upgrades to this home when it was built but possibly one of its best features is its amazingly huge sun and light filled bright designer open plan living area with expansive designer timber laminate flooring and designer lighting.

This home has a European feel about it and oozes class when standing in the dining room one can feel the cool breeze coming through the double doors that lead out off to the fully under cover alfresco entertaining
